

DIGITALISE YOUR BUSINESS

NAUTIFLEET FOR BOAT BUILDERS

We provide a white label portal and mobile applications to manage the relationship between the manufacturers, dealers and owners for the delivery and warranty period of the boats.

- Quality control checklists
- Service and maintenance planning
- Warranty and support management
- Usage data collection through the connected boat, predictive maintenance.

SHIPYARDS AND DEALERS

Our tools allow to optimize the work of the technicians, the communication within the company, and facilitate the communication with the owners

- Management of boat history (photos, maintenance reports, etc.)
- Management of deliveries, guarantees, maintenance
- Customised maintenance checklists
- Workshop planning management
- White label application.

NAUTIFLEET CHARTER

Our tools optimise the preparation and handover of the boats with your customers: they can discover the boats, with presentations, documentation and videos. You can follow your fleet remotely while sailing.

- Digital check-in
- Contracts and electronic signature
- Preparation procedures for deckhands and boat captains
- Follow-up of anomalies and maintenance
- Sailing reports through vessel monitoring.

LIBERTY PASS

The first platform to promote your brand and make the transition from ownership to usage through a subscriber management system that provides recurring income all year round.

The platform to create your boat club

- White label application
- Customizable booking algorithm
- Autonomous check-in
- Connected boats and digital key boxes
